EDUCATION

Bachelor's

Babcock university

| Second class upper

Abiola Alli

Lead Business Analyst

About me

Business Analyst PrepMajor January 2024 — Present Project: Transport Management System (TMS) Transformation · Led end-to-end implementation of a greenfield Transport Management System, improving delivery efficiency by 20%. · Delivered process mapping, workflow redesign, and regulatory compliance strategies across logistics operations. · Engaged senior stakeholders with high-impact presentations that drove buy-in and accelerated decision-making. · Oversaw data migration (5+ years of legacy data) ensuring data integrity and seamless ERP/CRM integration. · Coordinated UAT and change management strategies, achieving 95% user adoption. Software Developer Trainee PrepMajor July2024— present · Gaining hands-on experience in website development using WordPress and supporting tools. · Assisting with plugin integration, theme customization, and content management for client projects. · Learning how to interpret user stories, acceptance criteria, and technical requirements to support both development and business analysis tasks. · Observing development workflows to understand system architecture, technical processes, and software delivery cycles. · Developing knowledge of Agile methodologies through active participation in sprint planning, stand-ups, and backlog refinement. Business Analyst University of Greenwich Faculty of Business |Jan 2023- Dec 2024 Project: Business Process Optimization and Data Management Initiatives

Work experience

26 Jan, 2025 - 01 Apr, 2025
